LIST # 1

SUMMER 1945.

FOREWORD

We are pleased to present our first list and special offer of orchid plants.

In presenting this list of orchid plants, it has been our endeavor to list together a suitable selection of hybrids and species, which would be of interest to the amateur as well as the commercial grower.

Our supply of some of the varieties that we have listed is limited, and therefore these varieties are subject to being sold at the time of ordering.

This list contains but a portion of our stock available at the present time. Correspondence is invited in regards to information and prices of our stock of select Exhibition and Stud plant hybrids.

Our experience is always at the disposal of our patrons in all matters relating to the culture of orchids.

Inspection of our greenhouse is cordially extended to those interested in the culture of orchids.
